- 1 to 2 day delivery is available at almost all of our CVS Pharmacy locations. Delivery within hours is currently available in most markets (called "on-demand delivery" at checkout). Options available in your area will be displayed during checkout.
- You can only request to have your prescription delivered when it has been filled and is ready for pickup. You can request delivery by calling the store, selecting your delivery options within the CVS Pharmacy app or through a link via an "order ready" text message.
- Delivery is not available for certain insurance and prescription benefit plans, including Medicare Part B. Call your local pharmacy for additional details or to check your prescription's delivery eligibility.

#### Delivery Arrivals

- If you select 1 to 2 day and place your order ...
- By 3 PM Monday through Thursday: delivery within 1 to 2 days
- By 3 PM Friday: delivery by Monday
- By 2 PM Saturday: delivery by Tuesday
- After 2 PM Saturday through Sunday: delivery by Wednesday. No deliveries on Sunday or courier holidays.
- If you select on-demand delivery within hours, you'll receive your delivery within four hours. Orders must be submitted four hours prior to store closing to receive delivery the same day as order placement.
- Some insurance plans cover delivery fees. Many more, including Medicare Part D plans, do not. You'll pay the fee at checkout when you request delivery.

- You can request delivery by calling the store, selecting your delivery options within the CVS Pharmacy app or through a link via an "order ready" text message.
- Advance payment is required. Your credit, debit, flexible spending account (FSA) or health savings account (HSA) card information can be entered at checkout. If you plan to call the store to place your order, check here first to save your payment information to your account. In most cases, FSA/HSA cards may not be used for delivery fees.
